SUMMARY

Software engineer with expertise in full-stack development and engineering productivity solutions. Experienced in developing, testing, and maintaining software systems with a focus on code quality and developer efficiency. Strong problem-solving skills with an ability to debug complex issues and implement scalable solutions. Passionate about improving development workflows, automating processes, and creating tools that enhance team productivity across large-scale systems.

SKILLS

Languages: JavaScript, Python, Java, HTML, CSS, TypeScript

Web Technologies: React.js, Node.js, RESTful APIs, Full-Stack Development

Tools: Git, GitHub, VS Code, Google Cloud Platform, Vercel

WORK EXPERIENCE

Codemod, California (Remote)

Oct 2024 - Nov 2024

Codemod Trainee

- Developed automated code transformation solutions for Slate.js Javascript framework for large-scale codebase migrations.
- Created and maintained documentation for complex code transformation patterns to improve knowledge sharing
- Contributed to codemod's opensource for making easy

Spanco Web Tech, Kota

May 2024 - Jul 2024

Front-End Developer

- Designed and developed web applications with focus on scalability, performance, and user experience
- Implemented automated testing frameworks that reduced bug detection time by 40% and improved release quality
- Triaged system issues by analyzing code, network, and service operations to identify root causes
- Participated in design reviews to evaluate technical approaches and suggest optimal solutions based on requirements
- Created technical documentation to facilitate knowledge sharing and improve team onboarding processes

PROJECTS

- GITFRIEND – AI GitHub Assistant** *Next.js, React, TypeScript, Firebase, OpenAI, Tailwind CSS*
Developed a Git/GitHub assistant with features like AI-powered troubleshooting, README generation, Gitmoji support, and cloud file storage. Integrated Groq APIs, Firebase Auth, and Octokit for seamless GitHub interaction.
Link: gitfriend.xyz
- FITWELL – AI Fitness & Wellness App** *Next.js, React, OpenAI, Tailwind CSS*
Built a personalized wellness platform that provides AI-generated workout routines, self-care advice, and wellness tracking. Integrated OpenAI for conversational interactions and personalized user flows.
Link: fit-well.vercel.app
- GENXIE – AI Document Generator & Editor** *React, Gemini API, Tailwind CSS*
Created an intelligent document editor with Gemini API for AI-powered content generation, live formatting, and export options (PDF/DOCX). Focused on accessibility, performance, and real-time editing capabilities.

EDUCATION

Career Point University, Kota, Rajasthan

Jul 2022 - Present

Bachelor of Computer Applications

Relevant Coursework: Operating Systems, Linux, Software Engineering, Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Web Development

CERTIFICATIONS

- GitHub Professional Certificate (GitHub, 2024)
- Codemod Kickstart (Codemod, 2024)
- React Essentials (LinkedIn, 2024)
- Postman API (Postman, 2024)
